

JC17 Rec'd PCT/PTO 09 JUN 2005

What is claimed is: Claims:

1(currently amended). A wall mounting for detachably mounting a shower head, comprising: having
~~4-1~~ a holder for the shower head ~~(8)~~ ~~that 1-2~~ wherein the holder is configured for engaging a location on ~~a the~~ housing of the shower head ~~(8)~~ provided for the ~~the~~ purpose of mounting the shower head, latter that is unrecognizable as a shower head mounting, such and ~~4-3~~ acts by means of an interference fit along ~~the~~ withdrawal and introduction directions.

2(currently amended). A wall mounting according to claim 1, wherein the holder is configured for engaging a location on the housing of the shower head ~~(8)~~ provided for the purpose that is unrecognizable as such, based on its shape.

3(currently amended). A wall mounting according to claim 1 ~~or claim 2~~, wherein the holder is configured for gripping an ~~the~~ outer perimeter of the housing of the shower head ~~(8)~~.

4(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the shower head ~~(8)~~ remains operational when withdrawn from the mounting.

5(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the holder for the shower head ~~(8)~~ engages two diametrically opposed locations on the housing of the shower head ~~(8)~~.

6(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the holder for the shower head ~~(8)~~ has a pair of jaws ~~(14)~~ for gripping the housing of the shower head ~~(8)~~.

7(currently amended). A wall mounting according to claim 6, wherein the jaws ~~(14)~~ are drawn toward one another when the shower head ~~(8)~~ is in place therein.

8(currently amended). A wall mounting according to claim 6 ~~or claim 7~~, wherein the pair of jaws ~~(14)~~ are joined to the holder for the shower head ~~(8)~~ by a component ~~(15)~~ that is under tension.

9(currently amended). A wall mounting according to claim 8, wherein the tensioning component ~~(15)~~ is configured such that it contacts the housing of the shower head ~~(8)~~ over an extended area.

10(currently amended). A wall mounting according to claim 8, wherein the tensioning component ~~(15)~~ is configured such that does not contact the housing of the shower head ~~(8)~~ at any location thereon.

11(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the holder for the shower head ~~(8)~~ is arranged between tines ~~(11)~~ of a fork.

12(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the holder for the shower head ~~(8)~~ is arranged in a ~~the~~ vicinity of a ~~the~~ far end of an arm that does not constitute a fork and is mounted on a wall.

13(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the shower head ~~(8)~~ is configured in a ~~the~~ form of a hand-held shower head having a grip attached to its housing.

14(currently amended). A wall mounting according to claim 1 ~~any of the foregoing claims~~, wherein the housing of the shower head is disk-shaped.
